

SMALL THOR ML-TL

27-april-06
inspired by diyAudio.com
designed by Scottmoose
drawn by dld

NOTES:

1/ drawn with $\frac{3}{4}$ " (19mm) material

2/ 0.5 lbs / ft³ (8 g /litre). Stuff from the top to the half-way mark, or just past

3/ $\frac{3}{3}$ " D, 4" long port (75mm x 102mm)

4/ swiss cheese bracing as above.

5/ $\frac{3}{4}$ " (19mm) brace front-to-back couples the midbasses to cabinet back, top, & side-to-side brace.

6/ side-to-side are irregularly spaced using golden ratio. Diagonal is even better

7/ port can be moved to the front or bottom
